Professional Summary

Associate Software Developer with 2+ years of experience building cloud monitoring and observability solutions using Python, AWS, GCP, Kubernetes, ELK Stack, Grafana and Prometheus. Skilled in production support, automation, incident troubleshooting .

Professional Experience

TransUnion

Associate Software Developer

Jul 2023 – Nov 2025

Hyderabad, India

- Built Grafana dashboards and Prometheus alerts to improve infrastructure visibility and proactive monitoring.
- Managed centralized logging using ELK Stack for production applications and performed log analysis to troubleshoot critical incidents.
- Supported Kubernetes workloads deployed across AWS and Google Cloud Platform (GCP).
- Automated operational monitoring tasks using Python, reducing manual effort and improving operational efficiency.
- Collaborated with cross-functional engineering teams following Agile methodologies to improve platform reliability.
- **Project: Observability Platform (LaaS & MaaS)**
Implemented cloud monitoring, logging, alerting and dashboard solutions using ELK Stack, Grafana, Prometheus, Catchpoint, Kubernetes, AWS and GCP.

TransUnion

Software Developer Intern

Mar 2023 – Jul 2023

Hyderabad, India

- Assisted in monitoring, automation, testing and debugging of enterprise applications.
- Worked with Python and SQL to support cloud-based operational tools and internal applications.

Technical Skills

Programming: Python, JavaScript, HTML, CSS

Cloud: AWS, GCP, Kubernetes

Observability: ELK Stack, Grafana, Prometheus, Catchpoint

Database & Tools: SQL, MySQL, Git, GitHub, Bitbucket

Education

KL University

Bachelor of Technology, Computer Science and Engineering

2023

CGPA: 7.96 / 10
